DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-63 drawn to delivering individualized content, classified in class 705, subclass 14.
 - II. Claims 64-70, drawn to charging a fee to the client , classified in class 705, subclass 40.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as delivering individualized contents without charging a fee to the client. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
4. Since the examiner knows from past experience that an election will not be made by telephone, this restriction is proper under MPEP 812.01.
